GENERAL NOTES.

SENATOR JONES MAKING A STRONG FIGHT FOR WREN'S APPOINTMENT.

WASHINGTON, March 28th.—The Nevada and California Senators think there is still a good chance to secure the appointment of Senator Wren as Postmaster General.

Mr. Wren's appointment to the office of Postmaster General was based upon the points contained in the joint brief filed by himself and Mr. St. John and all others published.

Mr. Wren had not intended to press his case before the Senate, but, at the conclusion of White's argument, he called in his attorney and his wife, and they advised him to do so.

Mr. Wren had not intended to press his case before the Senate, but, at the conclusion of White's argument, he called in his attorney and his wife, and they advised him to do so.

DAILY RECORD-UNION

MARCH 29, 1889.

The RECORD-UNION is the only paper on the coast, outside of San Francisco, that receives the full Associated Press dispatches from all parts of the world. Outside of San Francisco, it has no competitor either in its influence or in its home and general circulation throughout the State.

SAN FRANCISCO AGENCIES.

This paper is for sale at the following places: L. P. Fisher's room 21, Merchants' Exchange, California street, who is also sole Advertising Agent for San Francisco, the principal News Agents and Hotels, and at the Market-street Ferry. Also, for sale on all Trains leaving and coming to Sacramento.

LET US CELEBRATE.

The 30th of April will be a public holiday. On that occasion the Nation will celebrate the last of its great centennials, the anniversary of the inauguration of the first President of the United States of America. The chief ceremonial in commemoration of the event will be observed in the city of New York, where the first inauguration took place, but every considerable community in the land should mark the passage of the day by some distinctive observances. There is no danger whatever in having too many of these national "occasions." The cultivation of the patriotic spirit is likely to be overdone. The youth of our day know of the nation's trials and struggles through war and tribulation to freedom and present greatness, by tradition only. The men who witnessed the late war for the preservation of the unity of the republic, are about the last remaining witnesses to any of the seasons that tried patriot's souls. Of all who beheld the inauguration of the first President, probably not one lives, and those who can recall from the chambers of experience the struggles of the infant republic, are not a dozen, perhaps not a half dozen in number.

Hereafter the children of the nation must have their patriotic quickened by the records and relics of the early days only, and these anniversaries of great national events are therefore to grow in importance as time advances, as means for inculcating patriotic truths, and stimulating the study of national history.

The Capital City of California ought to observe the 30th of April anniversary in some manner.

It need not be so elaborate as to weaken the disposition to celebrate, as is customary, on the recurrence of the natal day of the republic, but there should be appropriate observances of some kind.

It is not too early to consider the matter, and make preparation. We can at least have in this city on that day complete suspension of business, patriotic literary exercises, the firing of salutes, the floating of flags and the decoration of houses. We trust that some action will be taken at once with these or similar ends in view, and that Sacramento will be one of the cities of the Union to go on record as having celebrated the last of our great centennials.

The deaf mutes are increasing in this country at a rate out of all proportion to the increase of the population. The reason assigned for the fact is stated by the scientific observers to be the intermarriage of deaf mutes, and for the abnormal increase of those not born deaf mutes, to be the prevalence of cerebro-spinal meningitis.

The assurance is given, however, that the indications are that this latter cause is not to continue.

The scientists tell us, also, that if the practice of intermarriage of deaf mutes continues, it will

not be long before we will have a large class, constituting a variety of the human race, that will be deaf and dumb. This is by no means comforting, and suggests the thought that this intermarrying may be prohibited, on the ground that it results in the abnormal increase of a dependent class that the community is taxed to support.

Some idea of the increase of these infirm people may be gained by the statement that whereas in 1880, when we had 50,000,000 population, there were in the Union nearly 34,000 of these afflicted people; in 1850, when we had but 23,000,000 of population, we had but 9,803 deaf mutes. So the increase in that period was greatly out of proportion to the increase of the whole population, for in 1850 we had but one of these dependents to every 2,546 of the people, while in 1880 we found we had one to every 1,476, in round numbers. These figures are sufficiently startling, we repeat, to give force to the thought that the intermarriage of deaf mutes should be forbidden.

The appointment of Robt. T. Lincoln to be Minister to England will be approved by the judgment of the American people. Mr. Lincoln does not owe his selection to the important post because of the eminence of the name of his father, though the Nation does well to confer honors upon the families of its heroes; but he is a safe and a capable man, and his experience in the Cabinet, added to his general knowledge of State affairs, equips him in a large sense for his new post. Having the general capacity to discharge the functions of the office, he is fortified by a naturally cautious disposition and a conservative Americanism; and he will therefore represent us at the English Court with dignity and honor. He has had good legal training, is of acknowledged business capacity, and has the personal bearing and social qualities that should distinguish a diplomat. He had a collegiate education, is refined in manner of scholarly tastes, and is conceded to be an excellent judge of men. Such a representative of the United States can scarcely fail of success in England.

PROFESSOR YOUNMANS, in his latest editorial expression in the *Popular Science Monthly*, says that no fact is more noticeable in every day life than the inability of many persons to do their own thinking. This is true; and it is also true that it is a weakness that is rapidly increasing. It is unquestionably due largely to the "spirit of rush" that afflicts the age. We do not take time, from the crash and hasten of the day, to think, and hence lose the habit of thought. Professor Youmans charges it to the system of education we foster which does not deal with the relations of things. That is to say, we deal with facts to too great exclusion of their reasons, and by completely satisfying the curiosity do not invite the pupil to think out solutions for himself.

NO MAN in the country is better posted on the subject of iron interests than Mr. Carnegie. He declares, after a patient and extended examination, that the limestone, coal and iron deposits of the South are vastly greater than any one has supposed, and that foundry iron can be produced in Alabama for \$10 a ton, and that this fact must give the South a very large market speedily. Such things will go a

long way toward breaking the solidity of the South, politically. When commerce enters in prejudice and politics take back seats. With the South rivaling and competing with Pennsylvania, the former will not be long in adopting the Republican protective policy.

A CANADIAN legislator in opposing the bill under which the colony of American "shorts" in Canada could be broken up, and the "boodle" gang returned to their sordid friends this side of the "line," said:

"It will keep millions of dollars out of the country that now come here from the United States, and Heaven knows we are not enough to refuse to encourage this influx of capital."

That man's frankness commands admiration for its cool confession that the right and wrong of money has led to do with his code of morals than the division of spoils. It is not thinkable that our Canadian neighbors wish to be catalogued as those who content to live upon the wages of infamy. Yet, if we mistake not, we have heard precisely similar reasons advanced for tolerating evils nearer home.

THE BROOKLYN EAGLE is a Democratic journal, but its partisan predilections do not obscure its perceptions of truth or paralyze its sense of justice. It declares that elections elect, and should not be defeated by quibbles. And again, that "if the framers of the Constitution of West Virginia were asked whether they meant that the arbitrary refusal of the Legislature to declare the result of an election should operate as a bar to keep out the successful candidate, they would answer unhesitatingly, 'No.'" That is a way of putting the case that develops the common-sense view of justice. The EAGLE well remarks that the present situation in West Virginia is not only exasperating, "it is preposterous."

A BILL is pending before the Legislature of New York that has practical prison reform written all over it. It provides that all first-term convicts over the age of 25 shall be confined in the Auburn Penitentiary, and all second-termers under that age also. All second-termers over 25 are to be confined in the Clinton Prison. The separation of prisoners so as to keep the hardened offenders and the incorrigible from mingling with the tyro and unconfirmed in crime is a long step in advance in the direction of preventing or checking the increase of the criminal classes.

STATISTICS of the German Government show that since 1871, 2,000,000 Germans have emigrated from the Empire, and that in large part they were skilled workers. That is to say, they were most largely the very people Germany least wishes to lose, and the official reports clearly disclose the feeling of the Government in the matter. But what else can the Empire expect under a system that seizes upon the flower of the country to maintain an immense army.

The O'DONOVAN BOSSA crowd are shouting over the victory of Parnell and claiming a share of the credit. It is absurd. Parnell has had nothing to do with the BOSSA faction, and long ago washed his hands of the whole lot.

THE DEAD LINE.

No More Bills Will Receive the Governor's Signature.

Deputy Secretary of State Davidson still

continually puts a cigar in his office in the Capitol last night, with only the rays of a small gas jet, half-lighted, to brighten the darkness, while, on the contrary, Private Secretary Boruck had the Governor's office brilliantly illuminated, and the gas was blazing in every chandelier. A RACONTRUX reporter silently opened the door of the Governor's office, and walking to the private office, found Mr. Boruck busily engaged in writing a dispatch.

"Any news?" was the query.

"Yes," said the Secretary, "sit down and we will tell you all about it. You have planned the course, so the Governor will be

substituted for Assembly Bill 288.

This refers to the paying of the claim of

John C. Verda, who has been paid

over \$1,000,000 for his services in 1881.

Collins, Ontario, San Bernardino; Henry Robinson, Santa Ynez; S. S. Prior, Santa Barbara. University vouchers amounting to \$10,779.15 were also signed.

Another Veteran Gone.

Major Walter H. Holmes, well known in this city, died in San Francisco on Tuesday night. Since his retirement in that city, in 1874, Major Holmes had taken a prominent place in military affairs and was prominent in National Guard and Grand Army circles. He was a veteran of the late war, and served in the One Hundred and Seventy-seventh New York Infantry. In 1885 he was a member of the Committee of the National Army of the Republic at the National Encampment at Portland, and through his efforts the veterans decided to hold the next meeting at San Francisco. He became one of the National Guards of this State, among the commissioners of Major and Assistant Adjutant-General on the staff of General Dimond, when the latter was in command of the Second Brigade, and caused to give up this position. It is not probable that he would have been put at the head of the Pension Office in San Francisco had he lived.

Death of Charles C. Goode.

Charles C. Goode, a well-known printer and publisher of this city, who had been ill for some time, died on one o'clock yesterday afternoon at New York, in his home country, where he was staying in hopes of physical improvement. He was aged 33 years, and he leaves a wife but no children. His remains will be brought to Sacramento for interment on the 1st of April. He was a member of the One Hundred and Seventy-seventh New York Infantry. In 1885 he was a member of the Committee of the National Army of the Republic at the National Encampment at Portland, and through his efforts the veterans decided to hold the next meeting at San Francisco. He became one of the National Guards of this State, among the commissioners of Major and Assistant Adjutant-General on the staff of General Dimond, when the latter was in command of the Second Brigade, and caused to give up this position. It is not probable that he would have been put at the head of the Pension Office in San Francisco had he lived.

Death of Captain John Turner.

Captain John Turner, one of the pioneer residents of Sacramento, died in this city yesterday. He was well known all over the coast, having been Superintendent of the Gould & Curry mine, on the Comstock at one time. Captain Turner died in the first year of the mine, the year before St. Louis in 1849. On reaching Sacramento he engaged in freighting for some time and then went into mining. He was successful, and became wealthy. He died on Saturday, Dec. 23, having had many warm friends and was very highly esteemed by all who knew him. He was a member of the well-known firm of Goode Bros., and has been intimately known in business circles of the city for many years.

Prefers Not to Answer at Present.

The rumor having gained currency yesterday that money belonging to certain estates in Santa Clara county had been collected during Attorney-General Marshall's administration, the Deputy of the Jailer, Controller, Dunn, was interviewed last evening upon the subject. The Controller declined to say much about the matter, but replied that he had written to Mr. Lesser and preferred to await his answer before saying anything for publication.

Going North.

George W. Tenbrook, who for the past twelve years has been in the employ of the Hunt & Tenbrook Company, starts today for Spokane Falls, Wash., where he intends to reside in future. Yesterday afternoon the employee of the firm presented him with a handsome gold chain, set with diamonds, rubies and sapphires, as a token of their regard. Mr. Tenbrook goes to take a position with Holly, Mason & Co., wholesale hardware dealers of Spokane Falls.

River and Weather.

The highest and lowest temperature yesterday was 68° and 54°, with variable winds and generally cloudy weather prevailing. The sea-level temperature and minimum temperature was 61° being 5° warmer than the normal for that day.

Barometer steady at 30.12 inches. Wind south west and gentle and cloudy, moving from the south at 5 o'clock last evening.

The river fell two inches yesterday, standing last evening at 24 feet 2 inches.

Police Court.

Yesterday's calendar was very short and not very interesting. L. Bennett, charged with disturbing the peace of his aged father was convicted and sentenced to forty days in prison. The sentence was suspended, and he will be released during good behavior. Mrs. Green was fined \$2.50 for disturbing the peace of her neighbors. Charles Field, charged with vagrancy and assault, was given sixty days on each charge.

Auction To-Day.

Bell & Co., auctioneers, will sell at 10 A.M. to-day all the furniture and household goods contained in the residence No. 924 J street, over the Farmers' and Mechanics' Store. Parlor sets, bed-room sets, oil paintings and panel pictures, lace curtains and cornices, spring mattresses, bedding, carpets and dining-room and kitchen furniture.

Rubicon! Rubicon! Rubicon!

To-morrow 150 hats in plain, fancy and striped, worth from 25c to 75c, all will be sold at 10 o'clock. Also, a special sale of 50 black lace hats and 80 trimmed straw hats, at Millinery Dept. Red House.

The California Market, 712 K street, sells the freshest fish, the fastest and healthiest pony, the freshest and sweetest butter and the best asparagus to be found in the city. We have also the best fruit, day and night, at a fact, anything that can be found in a first-class market is to be had at the California Market. Do not forget the place, 712 K street.

Notice to Horsemen.—Don't forget that we enter to the spring meeting of the Capital Club close on April 1st for trotting, pacing and running races. All entries should be made to F. A. Jones, Secretary, P. O. Box 154, or dropped in the entry box at the track.

Just placed in stock: 136 children carriages, 1000 pairs of shoes, 1000 hats, one different style, with silk parasols, fine and cheaper than any offered before. A. J. Pommer, corner Ninth and J.

DOWN THE RIVER.

A TRIP BY STEAMER FROM SACRAMENTO TO BENICIA.

Incidents En Route—Thirty Miles of Orchard—Description of the Lower Islands.

A RECORD-UNION reporter took passage on the steamer Apache, which pulled out from her landing at the foot of K street yesterday morning at 10:15, and started for San Francisco. She had a large quantity of freight, principally produce, and about forty passengers. The river was quite high, marking 24 feet 3 inches at the gauge at the foot of K street, and the current was strong.

Just below Walnut Grove, the George Georgians, south, commencing with Benicia, with which we are nowhere just beyond. The house was where he was murdered by Edward Andeson and Tom Lawton on August 2, 1878, and for which Troy Dye and Edward Jones were tried and convicted at Sacramento, May 20, 1879.

The next stopping place was Walnut Grove, which is a village of some 500 inhabitants, has hotel, stores, post and express offices. Here the boat left a lot of produce. The men had a lot of fish, and took on 300 sacks of beans, quite a number of salmon and three large sturgeon.
